Dear Mr. Weisberg:

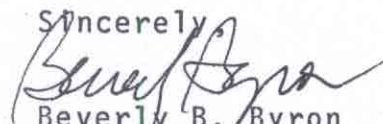

I am pleased to be able to send you several of the volumes from the Select Committee on Assassinations that you requested. Volumes I through XII of the study on Martin Luther King, volumes I through V on the Kennedy assassination, and the first volume on Legislative and Administrative Reform have been sent to you under separate cover.

In the next several months I will be attempting to secure the remaining volumes of this study for your use.

Thank you very much for offering your services in legislative area and also for allowing me the opportunity to be of service. If I may be of assistance in the future, you need only let me know.

With best regards.

Sincerely,

Beverly B. Byron
Member of Congress
